California Ranch News

The apricot season opened in Tulare county early in June, with crops running extremely low, nearly 50 per cent normal.

Approximately 500,000 cans of string beans will be the output of the Cutler-Lobinger canning plant at Fullerton during the next thirty days, officials of the company announced.

Hit successively by frosts and rains the state's cherry crop will be only 47 per cent, as against 70 per cent of a normal last year. Interstate shipment of this fruit up to June 5th had reached only 284 cars, as against 731 cars at that date in 1926, the decline being due partly to the light crop and partly to the late season.

The California farmer has prospered while all others in the country have been crying for relief, B. H. Cocheron told the farmers of San Bernardino, who gathered for the annual Farm Bureau picnic last week. Cocheron is head of the California State Agricultural Extension Service and all farm advisers work under him.

The canning season for apricots will be late this year, according to Leroy C. Kauffman of the Pacific Packing Company. Last year apricot canning started about the middle of June, but from the present condition of the crop it will be July 1. The cold weather is held responsible for the delay in ripening of apricots. The crop will be short this season.

Boys and girls, members of agricultural clubs in 3 counties in California, will hold summer camps lasting from three days to a week, under the direction of the Agricultural Extension Service of the University of California. Two state-wide camps are held in Davis every fall, but there are so many boys and girls unable to attend these, that the mountain camps are arranged.

H. C. Watson, manager of the Mountain Dairy Products Company, with headquarters at Alturas, reports that butter production this year in Modoc County has broken all previous records. Plants in Surprise Valley and Big Valley are running to full capacity. A new plant has been opened at Cassel, Shasta County, and work is being rushed on an addition to the Alturas plant.

It is reported that the Imperial Linen Products Company has purchased a site in San Diego and will soon break ground for a factory to handle hemp grown in Imperial Valley. Wall board, rugs and insulating material are to be made, according to the announcement. It has long been known that Imperial Valley could produce excellent hemp, the question of a satisfactory market for the product being the only drawback.

Trial of the Southern California Edison Company's suit to quiet title to water rights and condemn holdings of the Herminghaus estate along the San Joaquin River was set in the Superior Court at Fresno for trial on October 17. The action is the outgrowth of the Supreme Court decision restraining the power corporation from impounding waters of the San Joaquin River in its Florence Lake reservoir and from further interference with the normal flow of the stream in its power development work in the high Sierras.

Summer sores on horses are the result of genetic factors, and are not caused by the larvae of the habronem fly, according to Dr. G. H. Hart and C. E. Howell of the Animal Husbandry Division of the University of California. The appearance of the larvae of the habronema, which is parasitic in the stomach of the horse, in the sores had given rise to the theory that it was the cause of the sores. The sores appear in hot weather, refuse to respond to any treatment but disappear with cool weather. The control lies in breeding animals free from the trouble.

A crop of peaches considerably under the 1926 production is forecast. On the strength of reports received as of June 1st, the department predicts a state yield of 300,000 tons of clingstones, as compared with a production of 327,000 tons in 1926; and the freestone yield is predicted to be 185,000 tons as against 214,000 tons last year. For apricots, the yield is forecast at 181,000 tons, a gain of 5,000 tons over 1926. The estimated production of pears is placed at 193,000 tons, as against a harvest of 207,000 tons last year

Golden State
News of Interest to All

The city trustees of Chula Vista haveg iven their consent to the local American Legion Post for the erection of a, building in a recently acquired athletic park.

Enrollment in part-time schools of the State of California has increased from 7000 in the year 1920-21, to more than 22,000 in the year 1925-26, according to a survey just completed.

H. K. Weeks, supervisor of wine control, is in California to confer with grape growers and others in the grape industry on general questions affecting wine production. Weeks will stay in California some time, to work out more satisfactory methods of supervision of manufacture of wine and governmental cooperation with grape growers and others.

Completion of the old mission towers at Santa Barbara, the only remaining unfinished portion of the historic building which was partially destroyed in the earthquake two years ago, will be undertaken at once. It is planned to have the towers completed in two months, so that the finished mission will greet visitors to the old Spanish days' fiesta on August 11, 12 and 13.

Over 300 persons from all parts of Northern California attended the opening of the giant Melones dam power plant June 11. The power plant, costing $2,500,0000, will use water from the Melones dam, joint property of the Oakdale and South San Joaquin irrigation districts. The dam, which cost $2,200,000, was completed last fall and has been in use this year supplying water for irrigation in the two districts.

A total of sixty-three advanced military science students of the University of California at Los Angeles have signed up for the annual summer training course given by the government at the Monterey Presidio. The camp lasts six weeks from June 17 to July 28. Transportation charges and all other costs are furnished by the war department. The camp is open only to university and college R. O. T. C. members.

Dick Nunnally, printer on a Stockton newspaper, and Montague Rolfe, a Florida aviator, will be contestants for the $25,000 prize offered for the San Francisco to Honolulu flight it is reported. The two men were engaged in flying together for some time in Florida. Rolfe has received the necessary backing from a Florida concern and the two men will be ready for a flight in about sixty days. Their plane will be shipped to California in about thirty days.

As a result of a lenient policy recently adopted toward outside visitors who go to Mexicali to patronize the bars and cabarets and then return to Calexico more or less intoxicated, the City Jail there is empty for the first time in several years. The change of policy was inaugurated with the appointment of a new Police Chief, as the result of protests from local merchants that the unfriendly attitude of the former police department was creating ill will toward the town and destroying business.

Anticipating a throng of people which will tax the housing capacity of the town of Alturas, Modoc county, to the limit, the officials of the Alturas Roundup Association are broadcasting the message, "Plenty to eat, but bring your blankets." The seventh annual Alturas Roundup will be held there on July 2nd, 3rd, and 4th. Each year the local rodeo is attracting more riders of the first water and names famous in rodeo shows all over the country will be found on this year's program.

Exploding 180,000 pounds of dynamite in a single blast, the entire face of a mountain of lime in Tehachapi Valley will be lifted into the air and dropped into a 750,000-ton heap of rocks. This was the announcement of the Monolith Portland Cement Company, in preparing to blow up the mountain near the town of Monolith. Company officials have set the date for the explosion at about July 1, but it is quite probable that the charge may be held back until July 4, giving the holiday crowds a thrill.

To you who are planning vacation trips to the mountains: Smoking is now prohibited in all national forests in California. The only exceptions are, as heretofore, at certain improved camps and places of habitation. In the El Dorado, Stanislaus, Sierra, Sequoia, Inyo and Mono national forests the order will apply only to areas under 7,500 feet elevation, according to a bulletin issued by the United States Department of Agriculture forest service. The no-smoking regulation will remain in effect until the forest fire hazard is eliminated by the fall rains.

SEWELL S. BROWN, as "Po," Hernando's servant, Los Gatos 1924 Pageant and lead in 1927.

CECIL DICKINSON
Pageant manager in 1924 and 1927

New England Picnic In Memorial Park

The New England Society will hold a basket picnic at Memorial Recreation Park, Los Gatos Thursday, June 30.

Entrance near the bridge over the Los Gatos Creek, Street cars stop nearby, and there is plenty of room to park autos in the grove, right near where the exercises are to be held. Hot coffee will be provided free, as usual, but bring your cups and table tools.

Mr. B. W. Harrington is chairman of the committee of arrangements, and he has prepared a good program, but the social reunion in this charming grove will be the great feautre of the delightful gathering.

All are invited to come, whether New Englanders or not. Come and have a good time under the trees.

Mrs. Dr. Wm. E. Keith, preseident, 393 South Second street San Jose. 591
Annie L. Fairfield, secretary, 441 North First street, San Jose. 4706.

GOVERNOR YOUNG SIGNS FRUIT BILL

A new general law, designed to standardize and safeguard the handling of California fruits, nuts and vegetables was signed by Governor Young as one of his last acts of the bill signing period allotted him by law. The bill, introduced by Senator Jones of Santa Clara County, brings the control of fruits, nuts and vegetables from the garden or the orchard clear through to the hands of the consumer under the direction of the Director of Agriculture working through his own deputies and county officials.

The act provides that the director shall establish grades, after meetings with the boards, and shall publish his decisions, and that such grades shall thereafter control.

The act also defines and standardizes all boxes and other containers and puts a stop to the Yankee practice of putting the little apples in the bottom of the barrel.

The act will not apply to a grocer who delivers in bulk to a packer or to a by-products factory, but it covers all other sales or transfers.

Transportation companies are bound to assist in the carying out of the provisions of the act.

Standards of packing for every important product of California farms and orchards are set out in detail in the bill, and a series of definitions is provided to control the regulations which may be adopted by the Director of Agriculture.

Violations of the provisions of the act by the framers, dealers or others will be misdemeanors and punishable by fine and imprisonment or both.

The act does not carry any license or other fees or charges and the expense of enforcement will be borne by the State except as horticulture inspectors and others, paid by counties, are called upon by the Director to assist in enforcement.

ANITA STROM ABOUT

Miss Anita Strom who was badly injured in an auto accident is convalescing satisfactorily. The accident was due to smoke from a fire on the S. P. right-of-way, which obscured the road. Four machines in all were in the melee, the one in which she was riding being third. The car was not badly damaged at first but the real disaster occured when a fourth car crashed into theirs. Thru a misunderstanding of our informant we stated last week that she had four stitches taken in the cut on her forehead, but it was forty instead of four. Her family are rejoicing that she escaped alive, after seeing the machine and hearing what transpired.

NEW CUTTER BUSY

A Bie Gilson has taken another stride in his progressive market. This time he has installed "Jim Vaughn" as his chief assistant to help him during the coming rush season. 'Jim Vaughn' is a professional meat cutter and can out cut several men when properly manipulated. With this new worker on the job, Mr. Gilson and his two block men will be able to very efficiently take care of the meat demands of this community.

C. of C. School Will Be Held at Palo Alto

New problems arising in the rapidly broadening field of commercial organization activity will be dealt with at the Western School for Commercial Secretaries to be held at Stanford University, July 17 to 23. Methods by which chambers of commerce are joining forces with agriculture, community and organization publicity, city and regional planning, domestic distribution, and traffic questions arising in the wake of transportation developments are some of the subjects of courses to be given by expearts approaching them from the viewpoint of practical experience.

CHAMBER OF COM. THANKS WATER CO.

To the Officers, Directors and Stockholders of the Campbell Water Company, Campbell California:

The following resolution was formally presented and unanimously passed at the last regular meeting of the Campbell Chamber of Commerce held June 13, 1927. That the Campbell Water Company be extended the sincere thanks from the Campbell Chamber of Commerce for the gracious manner in which they have agreed to donate the water to be used in the Community Park, fostered by this body; also for the donations of the labor incidental to connecting and laying the pipe in that place.

As water is of vital importance in promoting the growth of our trees, and beautifying our city, you have struck the keynote of service to this community and and your act has brought forth most favorable comment at every hand where it is known.

It is the desire of the Chamber of Commerce that knowledge of your actions be broadcast throughout the length and breadth of our community that every citizen may know that we have such fine, public spirited corporations within our midst.

Yours Sincerely,
Campbell Chamber of Commerce
By P. H. Dunlap, Secretary

CLUB TO HEAR OF INTERNATIONAL

Roy Archibald acted as chairman at Kiwanis luncheon but passed up a golden opportunity with a silver lining. Never got a dime.

Mr. Kolb, following an interesting talk on the invention and manufacture of the various forms of explosives, showed a reel picture of the various uses in the industries and projects. Gun powder was first made by the Chinese in 1200 and was used mostly in warfare to frighten the enemy. The first dynamite made in California at San Francisco in 1882 where the ball park now is located on Valencia street. T. N. T. is now made at the Hercules plant at Hercules, California.

Hal Morton will be chairman next week and the diners will be told of "Our Trip to Memphis," by Chas. Crook, president of San Jose Club.

Plans are being made for the Campbell Kiwanians to furnish the program at San Jose Club luncheon, July 11.

Ruth Newton and Ada Gardner formed the Campfire service team at the luncheon.

MRS. MERRILL BROUGHT HOME

Mrs. E. C. Merrill who seriously injured her back in an automobile in Yosemite Park last week, was confined to the hospital there until Sunday when she came on the train to Tracy. Mr. Merrill met her there and and brought her the remainder of the way. Her sister-in-law, Mrs. David Craig had remained and accompanied her home.

On one of the detour roads in the park the yencountered a hole which made a sufficient bump to cause an injury to a cartalege in the spinal column. She stood the trip home very well and is resting and recovering as well as could be hoped.

Leo Hedgegard has been given a permanent position in the Campbell Branch of the American Trust. Our local bank has furnished competent employees and managers for many banks, who received their training here and, without doubt, Leo will prove to be another.

RECEPTION GIVEN PASTOR AND FAMILY

The public reception which was tendered Rev. and Mrs. J. H. Bennett and their son, Dennis, on Friday evening proved a very happy occasion. Numbers of residents of the community gathered to make their acquaintance and show their respect.

The Community Hall had been made homelike and beautiful with a cozy arrangement of furniture and quantities of lovely flowers. The shade of strangeness and formality that sometimes casts a hint of restraint over affairs of this kind was entirely absent and cordial genialty prevailed.

T. A. Cutting was in charge of the program, introducing H. C. Smith who sang "The Pine Tree" Salter, "Beckoning Roads" Wynne.

His own contribution was unique, a humorous comparison of the place from which Mr. Bennett had come and the one to which he had come, of the various considerations determining his stay and subsequent journey back to England and return. In emulation of the decorating of Lindbergh who had made but one trip alone across the Atlantic he pinned a badge upon Mr. Bennett inscribing him as Envoy extraordinary from London to Campbell.

Also in humorous, but none the less sincere,vein, Mr. Bennett replied to Mr. Cutting's remarks, expressing his appreciation for all that had been done to make the manse comfortable and cheerful for their home coming.

Mrs. Bennett added a few words of greeting and thanks on her own behalf.

Mrs. Ralph Hyde and Mrs. Gilmore Duncan added greatly to the pleasure of the evening, the former with two pretty vocal numbers "My Mother bids me bind my hair," Hayden "When the Roses Bloom," Reichardt, and the latter with three exquisite violin selections, "Adagio," Reese, "Serenade," Dradla, and "Valse-Blewett," Drigo.

Miss Louise Mahon, the popular church organist was accompaniest for all the musical numbers.

Rev. W. C. Robins voiced the greetings of the Methodist friends and extended a hearty welcome to his coworker and family. Rev. W. E. Eckles, former pastor added his words of greeting and welcome as did also Rev. F. W. Morrison of the First Congretional Church of San Jose.

The evening was pleasantly concluded with further visiting and the serving of punch and fancy cookies.

PICTURE ON EXHIBIT

F. H. Cutting has very kindly loaned one of his beautiful pictures of the Sand dunes at Monterey for display in the post-office window where it is affording pleasure to many patrons and visitors.

Mr. Cutting has returned from Santa Maria where he spent two weeks painting a series of pictures which were orders to be used in making post cards. Monday he goes south again, this time continuing on into Mexico where he will make another series for the same purpose.

Mr. Cutting's work is rapidly becoming more widely known and appreciated and Campbell is justly proud to have an "artist" on its roll of celebrities.

INJURED BY FALL

Mrs. W. T. Alexander had the misfortune Sunday to miss the bottom step of her back porch an fall upon the cement walk. She injured her left shoulder very badly and sprained her right ankle Her son, Dr. F. B. Carpenter, arrived not long after and bandaged the ankle. Her injuries will confine her to her bed and home for some weeks.

Professor Charles F. Shaw, soil technologist, has completed a soil survey map of the Coachella velley, showing in colors all of the soil found in the area, which is now ready for distribution, he says. The report which accompanies the map gives a complete description of each of the soils, together with chapters on climate, irrigation, drainage, alkali, general agricultural conditions, transportation, etc.

May rains and winds exacted their toll upon California field and orchard crops only in isolated sections, but the persistent cool weather throughout last month and the first ten days of June has served to set back the harvest from periods ranging from a week to a month.

Bees greatly increase the set of fruit in apple orchards by aiding pollination, says Professor E. L. Overholser of the University of California. Cross pollination, he says, also greatly aids in securing larger yields.

An ordinance prohibiting the importation into Butte county of tubercular-infested catle has been adopted by the board of supervisors. Violation of the new county law will be a misdemeanor. Butte county heretofore, it was pointed out by supervisors, has been made a dumping ground for tubercular cattle from both Plumas and Tehama counties.

Of the 10,675 dairy herds in California examined for tuberculosis last year, 82.5 per cent were found free from any evidence of the disease.

A NETWORK OF NATIONAL ROADS

Even if only for defense, an immense network of national highways might be worth all they cost in case of foreign attack. Good roads would be the kind of national defense that is preeminently useful in times of peace.

With the exception of a few miles under construction, one may now travel along the Pacific coast from Mexico to Canada on pavement. In estimation of facility of transportation, the value of such highway to the Government becomes apparent. Then there are other great highway systems. Practically all states have hundreds of miles of paving. But there is yet no continuous hard-surface road across the continent between the two oceans; and from a defense standpoint such a road would be immeasurably valuable as well as from a commercial and pleasure standpoint. All will welcome the completion of such means of travel.

Someday there will be no less than four transcontinental paved roads east and west, and no less than five or six from north to south. Such a formidable network—such a brilliant and beautiful system for the convenience and enjoyment of the people of the United States and Canada, would be a national or an international asset, and would cause the admiration of the entire world.

With a little more co-operative effort between the Government and the states; a little broader vision among local communities; a little more realization that a good road is not completely good unless it leads as far as one wants to go, and these will come.

Time was when to "get to the countyseat" was man's limit of vehicular travel. But now all is different. He wants to skirt the ocean's shores, scale the nation's mountains, drive to forest and plain, to national parks, to health resorts, to go for business and for pleasure, to haul his crops and products at so many miles to the gallon and so many gallons to the trip. America needs more good, long roads, and authorities will work to this end if the people will make their wants known in strong enough terms to get results.

MOTORCAROLOGY

As vacation time draws near a few hints to young men motorists are in order, Young man, when you get out in the great open spaces remember this:

If you get hungry eat off of your license plates. If the young lady with you is indifferential use the spark. But be courteous enough to hand her the windshield before you begin talking, and be sure not to a-fender. Take plenty of jack. If you get cold use the hood. Don't tire of the trip. For brushing your teeth there's nothing like one of the tubes, especially if it lies flat on the brush.

The trip will have a silver lining if your brake lining is all O. K. If you run out of gas talk to your motor; soon she'll be oil right. If the girl simply won't go any farther with you let motometer. Remember you can't drive safely with a head light, that is, a light head. Don't bolt your food; only a nut does that. Keep your bearings at all times, then sound taps and shift back home, before you choke.

THE TRAILER IDEA

Imagine a pilot airplane pulling a long string of "trailers" or gliders, similar to a locomotive pulling a train of cars. This will happen if a German inventor has his way. It sounds logical, as it is an established principle in mechanics that a given power an pull several times more than it can "lift." So it comes from the concerns that sell automobile trailers. It may yet be possible to fly or ride to Europe on an air "caboose!"

EUROPE GETTING TOGETHER

Excessive trade barriers in Europe have claimed the attention of the International Economic Conference meeting in Geneva. It is being found out that small countries—some of them no larger than a good sized county in the United States—can not exist by shutting off trade with one another, which tariffs were not imposed so much for commercial purposes as for political expediency and because of international rivalry. The tariffs, besides being excessive, are scientifically administered. In fact they are not tariffs; they are contrivances throttling to the flow of commerce. Europe must first get together if it expects to look to the Western world for peace.

The recommendations of the Economic Conference is a hopeful sign of progress.

Swimming Week.—No. Sally, there is nothing significent in the matter of J. H. Rainwater being chairman of the swimming week celebraton in San Jose.

Man's greatest accomplishment is when he finally gets the new car into the garage without scraping the fenders.

For Travelers

1. Travelers' Checks and Letters of Credit—safe and convenient travel money.
2. Safe Deposit box for valuable papers and jewelry.
3. Storage for silverware, paintings and other valuable household goods.
4. Safekeeping Account—the services of a financial secretary in the management of securities.
5. A complete Travel Bureau Service, hotel reservations, transportation, and so on.

Cong'l Church

The services at the Congregational Church will now resume their normal tone. The minister, Rev. J. H. Bennett will preach both morning and evening next Sunday.

11 a. m. Subject: "The Ark of the Convenant"

7:30 p. m. Subject: "Secret of a Nation's Welfare."

The special children's talk will begiven during the morning service. All young people are invited to be at the house at 6 p. m. on Sunday night for an hour's free talk. Suggestions are welcome.

Mr. Bennett desires to express the thanks of Mrs. Bennett and himself to everyone in Campbell who has given them such a cordial welcome back. They desire to invite anyone to call on them at the Parsonage, the most convenient hours are between 3-5 or 7-10 p. m.

M. E. CHURCH NOTES
W. C. Robins, Minister

At 11:00 Worship with sermon by pastor, Topic: "The Church of the Lighted Lamps."

At 7:30 the subject will be "Heroes of Faith," "Who and What Was Back of Lindbergh."

There will be half hour of helpful gospel singing with some special music.

Strangers and all our friends will find a hearty happy reception.

Sunday School at 9:45. Classes for all grades. A happy opening service. You will enjoy our Young Peoples meeting at 6:30. Special Bible study groups at 6 p. m. The W. F. M. Society will meet on Thursday, the 30th at the Parsonage. Last meet for Conference year. The official board will meet Friday July 1st at the parsonage. Business and Sociability.

Town Tales Tersely Told

FLAGS AT SMITH'S.

Mrs. Jennie Turnbull of San Francisco is here visiting Miss Mary Rodeck.

C. S. Inman has been quite ill for the past two weeks and is still under the physician's care.

Mr. and Mrs. D. H. Cramer and sons planned to leave today for a camping trip to Yosemite Park.

Geo. M. MacDonald of the Ainsley cannery force is sojourning in Yosemite Park enjoying its delights.

Wilbur E. Whitney of the C. U. H. S. faculty will take a summer course at the University of California.

Geo, Benner arrived Saturday evening from Boulder, Colo., where he had spent the past year taking advanced work.

Miss Esther Hedegard is enjoying the beauties of Yosemite with friends. Mr. and Mrs. Hedegard left Wednesday for the same place

Miss Mary Rodeck returned last week from a very delightful visit with Mrs. Warth at Eureka and Mr. and Mrs. Geo. Turnbull at Lakeport.

The L. I. Lenox family accompanied by Hazel Sayer will go to their summer home at Twin Lakes tomorrow to spend the most of the summer.

The A. Bargas family returned the first of the week from their outing at Yosemite and reported a wonderful two weeks.

Mr. and Mrs. A. Keesling and children returned Wednesday afternoon from a delightful camping trip to Huntington Park.

Miles Standish and Jerome and Lewis Pope were with the Campbell group of Boy Scouts that camped in Yosemite recently.

Miss Ruby Crow who was operated upon recently has made a very satisfactory convalescence and is able to make short trips down town.

Frank and Adah Nelson were down from Berkeley Sunday renewing acquaintances and enjoying a day in their former home on North First street.

Mr. and Mrs. E. K. Clendening left Monday for Stouffville, Ontario, Canada and later will visit in Ohio, planning to be away about a month or so.

Mrs. J. C. Ainsley who has been quite ill with pneumonia is reported as much improved and able to sit up for a short time. Her host of friends extend best wishes for a complete and speedy recovery.

Mr. and Mrs. Harry Van Epps of Newton Ia., were week-end visitors at the home of Mrs. Hattie Baugh. They had spent the winter at Santa Monica and were on their return to their home. Mr. Epps plans to locate somewhere in California, but has not settled upon the place as yet. Mrs. Epps is a sister of Mr. E. A. Baugh and this was their first visit here.

Picnic June 25

Orchard City Grange and East Palo Alto Grange will have a joint picnic and program at Winchester Park, Saturday, June 25.

All grangers and their families are invited to come and enjoy the occasion.

Bring a well-filled basket, coffee furnished.

Mrs. J. H. Campbell is spending the balance of the month at her Capitola cottage.

Miss Eleanor Carter and her mother left this week to spend some time at Lake Tahoe.

Mrs. Etta Alison and daughters spent the week-end at the Ralph Hyde cottage at Twin Lakes.

Mrs. Lena Rodeck is visiting her daughter, Mrs. Calvin Antrim and family at Fresno, after a visit with Mr. and Mrs. Ben Rodeck at Monterey.

Mr. and Mrs. M. M. Knopf and four youngest children left Saturday by auto for Mr. Knopf's old home in Pennsylvania. They plan to return via Canada and Yellowstone Park.

There were very interesting Children's Day exercises at the Methodist Church last Sunday morning and in the evening Hon. T. M. Wright spoke on the new criminal laws of California.

Geo. E. Hyde left last week for a five-week trip to the East visiting his old boyhood playground. Combining business with pleasure, George will call on his customers at the largest cities and distributing points.

The female population of Campbell has been increased by two recent arrivals—a daughter at the home of Mr. and Mrs. R. F. Mathis, June 15, and at the home of Mr. and Mrs. Alfred Smith, June 16.

The Gordon Ainsley Bulb and Flower Gardens have supplied many beautiful bouquets for the local post-office but now they have loaned a beautiful Easter Lily plant in full bloom. At present there are many of these beautiful plants blooming in the gardens, but they are being grown for the bulbs.

The W. H. Phinney Family traded their home on Rincon ave. for property in Santa Cruz owned by A. M. Foster. On Saturday the exchange of residences was effected. We regret the departure of our good citizens, but are glad to welcome the Foster family to our community. Mr. Phinney will engage in the chicken business at his new location.

Miss Winnie Grizzle who taught the past year at Applegate, Oreg., arrived Wednesday to spend the remainder of her vacation. Since the close of her school she witnessed the Rose Carnival at Portland, attended some of the sessions of the D'Autremont trial at Jacksonville and visited Mrs. Mrs. Dixie Isham Drew at Medford, Oreg. At Mrs. Drew's a pleasant reunion was enjoyed, Mr. and Mrs. J. H. Isham being there, and Mrs. Virginia Isham Bryant. Miss Grizzle plans to return to Applegate in September.

Lone Scouts Hikers

Theadore Anderson and Spencer Holmes of the Busy Beaver Tribe and Reed Hall of the Lone Wolf Tribe arrived in Campbell Saturday afternoon from a hike to the coast via Big Basin. They were on the trail for three days, from Wednesday morning until Saturday afternoon.

The first day they hiked to Big Basin and arrived there late in the afternoon well tired out. The next morning they were packed to the coast to hunt for Indian relics at the Indian burial grounds in the sand dunes near Pigeon Point. They camped in the dunes and hunted for relics the next day. A few Indian arrow heads and other priceless remains of the old California Indians were found. The same day the boys hiked over the Sunset Trail via Big Basin and arrived back in the good old Orchard City Saturday afternoon tired and dirty but feeling all the stronger for it. Spencer Holmes.

Hermetically Sealed Pennsylvania Tennis Balls cost no more at Smith's.

A hunter of Corona who decided he would try out a couple of Chinese ringneck pheasants, is in jail in San Bernardino county in default of $1500 bail, acording to reports reaching the executive offices of the Fish and Game Commission. The birds were killed on April 19 and shortly afterwards Deputy W. C. Malone nailed the offender and brought him into court where he was assessed a fine of $300 or ninety days in jail. When the defendant appealed the case, figuring the sentence was to stiff, the judge fixed the bail at $1500 and at the last reports he was still in the bastile. The judge's action meets with the full approval of the officials of the commission, B. D. Marx Greene, executive officer, declared upon receipt of the report of the case.

Horse racing is coming back to California with a galaxy of thoroughbreds from the West and East competing in a thirty-seven-day meeting on the Tanforan track, San Francisco, from October 27 to December 10. Plans for resumption of the sport were announced by Howard Spreckles, secretary of the Pacific Coast Jockey club, and Judge Joseph A. Murphy, noted race track figure and presiding steward in the days of racing at the old Ingleside track. The San Francisco handicap will be the crowning event on the racing schedule, for which a purse of $25,000 will be offered. Other rich awards will be offered, none less than $1000, to attract the best of turfdom for the greatest racing program in the history of the Pacific Coast.

Thirty-five million gallons of water daily were pumped from the Los Angeles water department's emergency wells near Van Nuys, to help supply the city of Los Angeles while repairs were being made to the Owens Valley Aqueduct which was damaged by dynamiters in the Owen Valley district. There are fourteen of the wells sunk into the beds of San Fernando Valley for emergency purposes. The flow from the wells keeps water officials from drawing too heavily from the system's large surface reservoirs, from which water sufficient to supply Los Angeles at the rate of 1?0,000,000 gallons a day, while damages to the Aqueduct are repaired.

Californians crave municipal entertainment, according to a report by State Controller Ray L. Riley showing that the 264 cities in the state spent $1,007,626 in 1926 to amuse their inhabitants. The money was spent for carnivals, musicales, celebrations, etc., that annually occur in every city, town and hamlet. San Francisco expended the largest sum for entertainment, her contribution to the total being $473,363. Expenditures by other large cities were: Oakland, $53,272; San Diego, $37,471; Sacramento, $25,141; Berkeley, $9,154; Long Beach, $185,565; Pasadena, $14,980; Fresno, $4234; Stockton, $15,327.

The Taft Union High School's physical plant ranks among the finest of the United States, according to a survey just completed by the California Taxpayers' Association. The rating was established through employment of the Strayer & Englehardt system, which showed a score of 892 points out of a possible 1000. The tax experts declared less than 8 per cent of American high schools have a rating as high. The Strayer & Englehardt system takes into consideration only the physical condition of the plant, not the scholarship.

Unmarried school teachers are but "immature novices" according to a petition circulated in Riverbank to force the trustees of the Riverbank Grammar School to employ married women as school teachers. The petition, signed largely by farmers, asks the board to resign. The move against the board began several weeks ago when the trustees made a ruling that only unmarried women or persons who must make their own living be employed. The ruling further specifies that teachers must reside in Riverbank.

Eighteen students of the University of California finished their first cruise on a United States battleship as potential officers in the American Navy, when the U. S. S. Tennessee arrived in San Francisco on Tuesday, June 14. The students are members of the campus Naval R. O. T. C. Unit which was organized last year under government instructions. Lt. Com. Ernest L. Gunther was in charge of the cruise. On graduation the students will have the same rating as graduates of Annapolis.

Although popular opinion has made the modern college student a Godless infidel, surveys by the University of California Y. M. C. A., reveal that 65.5 percent of the freshmen students have some church preference, with the Presbyterian church the most popular of all. Of the 1080 students who had no preference, 650 were men and 430 women.

The whole town of Oakbar, Siskiyou County, was sold last week for $7,500. Mr. and Mrs. O. W. Morgan closed the deal with E. C. Boring & Son of Yuba City, Sutter County. The town consists of a general store, a post office, a dance hall, a service station and several homes and cabins.

Giving impetus to California's campaign against smokers who throw lighted cigars, cigarettes and matches from automobiles, Judge Clendenning of Hopland recently fined two men $50 each for throwing cigarettes. The fines are the heaviest on record in the State.

W. B. Lewis, superintendent of Yosemite National Park has announced that henceforth the National Park Service will maintain the nine-mile Hetch Hetchy road connecting Mather Station with the Hetch Hetchy reservoir and that it will be operated as a toll road.

OBSERVE QUARANTINE REGULATIONS

Before carrying fruits, vegetables or flowers into other states while on a tour, advises the California State Automobile Association, be sure to learn the quarantine regulations as many states require inspection at State lines.

The great problem for the modern teacher is to see that the students don't graduate from the schoolhouses to the roadhouses.

SPARK PLUG TROUBLE INDICATORS

If your engine misses when idling or on a light pull, according to the California State Automobile Association free emergency road service, it indicates that gaps on spark plugs should be wider. It it misses at high speed or when pulling hard, the gaps should be closer.

We've been watching for the tow to be called "Lindbergh."

It is wholesome for everybody on a vacation except the Pro enforcement officials.

NOTICE TO CREDITORS

Estate of John F. Duncan, Deceased.

Notice is hereby given by the undersigned Executrix of the last Will and Testament of John F. Duncan, deceased, to the creditors of and all persons having claims against the said decedent, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court in and for Santa Clara County, California within four (4) months after the first publication of this Notice, or within said period to exhibit the same, with the necessary vouchers, to the said Executrix at the office of Bohnett, Hill & Campbell, Rooms 311 - 314 Bank of San Jose Building, in the City of San Jose County of Santa Clara, State of California, where all business connected with said estate will be transacted.

San Jose, California, this 4th day of June, A. D. 1927.

Elizabeth A. DUNCAN

Executrix of the last will and Testament of JOHN F. DUNCAN, Deceased.

BOHNETT, HILL & CAMPBELL, Attorneys for Executrix.

Warren R. Schoonover, extension specialist in citriculture, University of California, says: "The first essential to efficient orchard heating is to have adequate equipment. This will mean from forty to sixty large-capacity oil heaters per acre, or from eighty to 100 solid-fuel or small oil heaters. With this equipment one can be sure of maintaining satisfactory temperatures without running the heaters too fast and without burning the reserve fuel supplies in the field below the danger point. Successful orchard heating, in the main, depends upon being able to keep a large number of small fires per acre burning during the whole period of low temperature."

That the cling peach has been made a "two to one" better paying fruit than any other, both for the grower and the canner, was the declaration of S. C. Day of Loomis, Placer county, president of the California Canning Peach Growers association, at a meeting of the Wilson district members of the association held in Wilson school house at Yuba City recently. The cling peach is being placed in the hands of the consumer at a figure that will keep it a favorite and a staple article of food, Day added.

While alfalfa and barley continue to be staples as green rations for poultry at Owensmouth, kale is planted on most of the ranches and fed for variety. It is regarded as especially good for baby chicks and growing pullets, which seem to like it better than any other kind of green feed. For the youngsters it is usually cut and tied in bundles and these are hung in the yards high enough to force the birds to jump a little to reach them. Thus both food and exercise are provided.

An eighty-acre planting of Los Angeles lettuce is proving profitable on the Mt. Valley ranch, two miles east of the Val Verde school in Perris valley. The Pennsylvania Macaroni company of Pittsburg is responsible for the planting, which is under the management of C. T. Fisher. C. McFadden is in direct charge of growing the crop. It is expected that the lettuce will be harvested the last of December. Another crop is to be planted in January for spring cutting.

Where is my wandering boy tonight? Probably out looking for dad and mother.

California Ranch News

Truck crops in California are in nearly all cases behind the average, but with improved weather conditions there has been a noticeable appreciation in quality, according to a bulletin compiled by the California Co-operative Crop Reporting Service.

Inspection of cantaloupes is being rigidly enforced in Imperial Valley. Several hundred crates were thrown out at one shed recently, all brought in by one shipper. This is one way to insure good "cants" and good prices and the county says it "means business."

Potato growth in San Fernando Valley is 80 per cent, while other sections of Los Angeles report a condition of 90 per cent of normal. In Kern and Tulare counties frosts and aphis have reduced the early potato crop by 60 per cent. Carlot movement from Kern is not anticipated before June 15. Onion growers in the Coachella Valley have experienced a profitable season, having already shipped a total of 1,550 cars, with 150 cars awaiting movement by rail or truck. Onion acreage in the San Joaquin delta is 4,200 as compared with 5,500 last year.

Harvesting is under way on some of the holdings of the largest land owners in the Tulare Lake basin with a combined harvester already at work and others to be added as the grain ripens. There are approximately 150,000 acres on wheat and barley on the lake basin and adjacent areas. The lake basin farmers are rushing work on harvesting to get the crop out of the way to forestall submergence in case of flood water reaching the lake from Kings River and other streams that empty into the lake basin.

A colloidal sulphur, the by-product of the manufacture of gas from oil, is available in commercial quantities this year for dusting of vines and trees, according to E. R. deOng, assistant entomologist in the Experi- California. Heretofo all the sulphur ment Station at the University of used for agricultural purposes has been imported; but this new product appears not only to be cheaper but because of its fineness, much better adapted for insecticide, fertilizer and alkali-neutralizing purposes.

Vines in Merced County are more thrifty and vigorous than they have ever been before, predicting success for grapes this year. All conditions have been favorable; weather, moisture and climatic conditions have been ideal for vineyardists. Despite the fact that the peach set is not as heavy as usual, practically no loss is expected since the peaches make up in size for what they lack in numbers. The smaller set is responsible for the increase in size, and the greater growth in turn will make up in measure for the scarcity of fruit.

And then— let electricity do all the hard work

JUNE may remind you of the day of days. Or perhaps a day that is coming this month.

But no matter, if you would take care of the hand she gave to you, give her the labor-saving electrical appliances. They do all the hard house work. They wash the clothes and dishes, clean the house, cook automatically, and do innumerable little tedious things that wear a woman so. They preserve the bloom of youth. They give her free hours to spend with the children.

Buy her these electrical appliances for a wedding present or for the anniversary. She will reward your thoughtfulness by being the same youthful pal, always.

PRIZES OFFERED FOR BEST VOICES

National Radio Audition Open to Young Singers in This Country.

America's future generation of vocal stars will be disclosed to the world this Fall as another of the wonders due to radio. Every young man or woman with the gift of song, whether from country, town or city, will have an equal chance.

A nation-wide quest for the best young singers and the opening of the door of opportunity to them has been undertaken by the Atwater Kent Foundation, an institution established for scientific and educational purposes by A. Atwater Kent, the Philadelphia radio manufacturer and sponsor of the Sunday night grand opera hour, broadcast over a network of nineteen stations.

The Foundation has announced plans for a "National Radio Audition," to find by competition the best undiscovered voices in the United States. Prizes aggregating $17,500, with tuition for a musical education in certain cases, are offered as follows:

The two winners of first place in the National Audition—a man and a woman—will each receive a gold

A. Atwater Kent,
President of Atwater Kent Foundation, which opens door of opportunity to undiscovered vocalists.

decoration, $5,000 in cash and two years' tuition in a leading conservatory.

Winners of second prizes will each receive $2,000 in cash and one year's tuition.

Winners of third prizes will each receive $1,000 and one year's tuition.

Winners of fourth prizes will each receive $500.

Winners of fifth prizes will each receive $250.

Musical, civic and women's clubs in each community in each state will be invited to hold local contests to select the best young man and best young woman singers of their towns. These winners will then be certified to a state audition, which will be broadcast by a radio station in each state. A state winner of each sex will be chosen and will receive a silver medal.

The next step is a district audition. The young men and women who have won state honors will be taken to a central broadcasting station in one of five districts, where an audition will be broadcast to select the two winners—a young man and a young woman—from that district.

The two winners in each district will receive gold medals and the ten finalists thus selected will be taken to New York for the final National Audition, to be broadcast over a national network of stations. All expenses of contestants in the district and final auditions, including railroad fare, hotel bills, entertainment, etc., will be paid by the Atwater Kent Foundation.

The spirit and purpose of the National Audition are indicated in a statement by A. Atwater Kent, president of the Foundation, who said:

"The discovery of one of those rare voices, of which each generation produces a very few, seems to me an event of profound national importance. Even when such a voice could give pleasure to only a few thousand people in a year it was a national treasure. Now that millions may enjoy it on the same evening through the medium of radio, such a voice has become priceless.

"The National Radio Audition, supported by the Atwater Kent Foundation, is an undertaking to search the entire country for beautiful voices and to offer these singers an opportunity for full development, recognition and reward."

The principal qualifications for contestants are as follows:

Must not be over 25 years old; must never have been associated with a professional theatrical or operatic company; must never have been a paid principal in any concert held outside their own states; must declare an intention to follow a musical career and must be free from theatrical or musical contracts

This limitation permits choir singers to enter the auditions, even though they may have received financial compensation for singing in churches. Other groups from which entries are anticipated are students in musical schools and locally prominent singers in high schools and colleges. Musical organizations in each state are also afforded an opportunity to participate.

Home-Builder Gets Good Investment Plus Comfort

ECONOMY of space in this five-room English town house has not meant a sacrifice of an artistic exterior. Built of variegated or common brick, whitewashed, with a roof of stained shingles or slate, it presents an unusually attractive and compact appearance. The portico is arched and roofed, and has a red brick floor. The shutters of solid, weathered boards give an interesting departure from the usual New England type.

A number of features provide for exceptional comfort and convenience. The living room has an oriel bay window that gives light from three directions and affords a window seat or fernery within. Every room has windows on two sides, giving cross-ventilation. The house is insulated, walls and roof, with celotex as protection against cold and waste of fuel in the winter, and the hot rays of the sun in summer. The floors are hardwood throughout, and have a layer of celotex placed between them to deaden noises within the house, a feature that is especially appreciated where there are small children and noisy boys in the house.

The living room has an open fireplace and built-in book case. The porch or sun room may open off the living room or dining room, and can well have a sleeping porch above if extra sleeping quarters are needed. The service entry is conveniently placed at the side, to save the housewife steps. The kitchen has built-in cupboards, ironing-board and breakfast-nook.

ALL ALONE

(In Memorium)

When that dear old form was laid to rest
An aching void congealed his breast
Nor time, nor change can ease the pain
That thrusts itself upon his brain
What hurtful seeds can he have sown?
That he must reap, "I'm all Alone."

For him no nectar shall distil
In chalice of love's ardent will.
No more he'll see the lovelight glow
In tender glances to his brow
The heart'ning gleam, the softened tone
No echoes finds in "I'm Alone."

No sweeter words than Home Sweet Home
Can utterance find 'neath yon blue dome.
No sadder weight than he who's left
Of home, and all it means bereft.
No anguished acsents weary tone
Breathes deeper grief than "I'm Alone."

'Tis worse than useless to repine,
Yet, who can kill a thought's design?
Or who could wish for mem'rys blot?
However sad maybe his lot—
There's surcease only at The Throne,
For him who feels "I'm All Alone."

And thus he'll go through all his years.
For him no Lethe dries his tears
No psalms of peace, no strains of stress
Can bring to him forgetfulness.
He'll pass along to that unknown
In cadence with 'I'm All Alone.'

At the last closing scene of life,
When weary nature rests from strife;
And all thats mortal yields to death,
His spirits last receding breath
Will whisper—mingled with a moan—
"Alone, Dear Lord, I'm All Alone."

W. B. B.

CROSS CROSSINGS CAUTIOUSLY

Drive cautiously approaching railroad crossings, advises the California State Automobile Association, particularly if your view in either direction is obstructed.

Every boy will still have a chance to become President if the incumbents don't get to be life termers.
